

Raise  
LOVE 

By Reem Alsaif

This book is dedicated to the  
people who experienced  
fear while growing up and  
affected them negatively.

“

The sign of great  
parenting is not the  
**child's behavior.**

the sign of truly great  
parenting is the  
**parenting behavior.**

”

- Andy Smithson

Target Audience

Objectives

Methodology

# Introduction

---

Raise love is an awareness campaign that aims to educate parents and schools on the importance of raising a child based on love rather than fear because the lifestyle a parent or school chooses to raise the children upon will take a huge impact on their lives and actions. The goal of the campaign is to educate as many parents about the issue of parenting lifestyle focused on fear rather than love, as well as allowing a personal change that leads to a transformation of the society.

## Definitions

---

Fear: “an unpleasant often strong emotion caused by anticipation or awareness of danger” (“Definition of FEAR”, 2020)

Love: “strong affection for another arising out of kinship or personal ties” (“Definition of LOVE”, 2020)

# Importance

---

## **Personal Importance:**

This topic is important to me because I was one of the children who grew up based on fear rather than love. I feel that I want to raise and teach my children to have a love-based lifestyle instead of being afraid and lose their confidence.

## **Global Importance:**

This topic is important globally because children are raised and being pressured by the society and traditions which make them live a lifestyle based on fear rather than love. This also effects the children's emotions, actions, and specially the way they think, which might cause long-lasting effects in their futures.

# Target Audience

---

## **Primary:**

Parents.

## **Secondary:**

Schools.

# Objectives

---

- 1- Recognize the difference between actions based on fear and love.
- 2- Understanding both the negative aspects of raising children based on fear and the positive aspects of raising children based on love.
- 3- Investigate the lifelong effects of fear on the mental health and behavior.
- 4- Research traditional motivations behind the reason why children in Saudi Arabia grew up based on fear.
- 5- Offering a solution to educate parents and schools on the importance of love-based lifestyle.
